

Epiq Bankruptcy Analytics

NEW

Comprehensive bankruptcy filing metrics at your fingertips

Bankruptcy Analytics is an online platform providing on-demand access to the industry's most comprehensive bankruptcy filing data. With 14 years of filings and more than 15 million historical bankruptcies and adversarial proceedings, Bankruptcy Analytics gives you data visualizations to see where the market is trending.

Powerful, cloud-based dashboards empower legal and financial professionals with deep insight into bankruptcy lifecycles

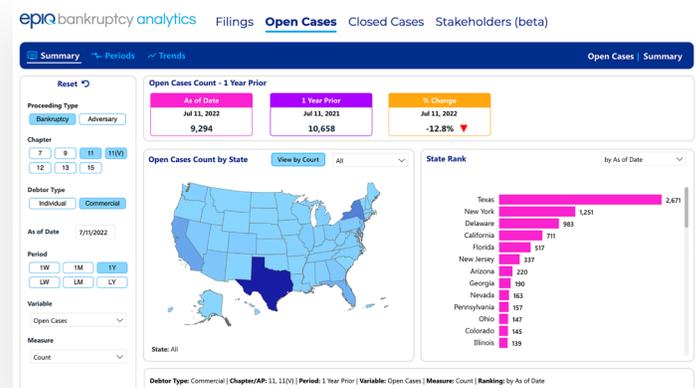

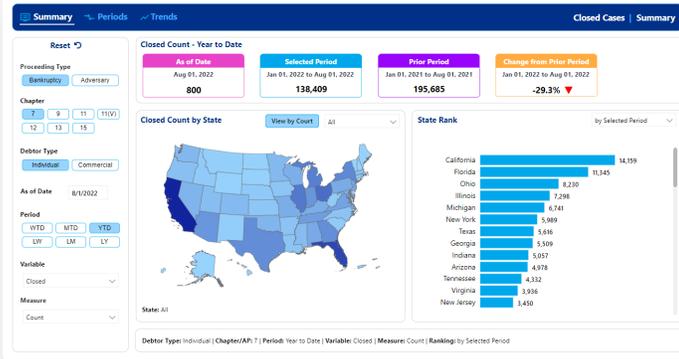

Filings Dashboard

View new filings and adversarial proceedings across the market or in the areas you care about most

Open Cases Dashboard

See current and historical open case metrics across states, courts, and chapters

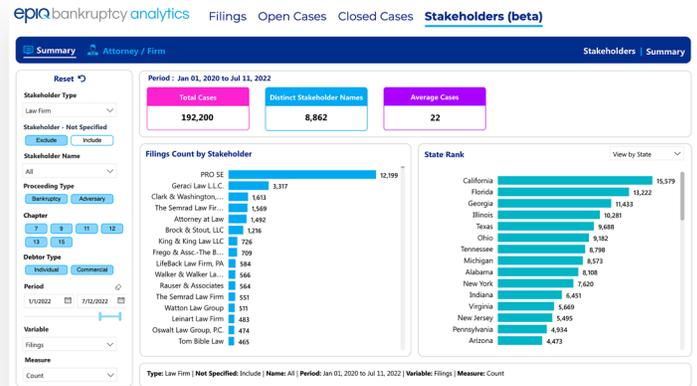

Closed Cases Dashboard

Access duration and disposition metrics for discharged, dismissed, and closed cases

Stakeholders Dashboard

See current and historical open case metrics across states, courts, and chapters

Gain a competitive advantage

Determine if bankruptcy filings are increasing or decreasing

Right-size your business and budget more effectively

Identify data trends for predictive analysis and better decision making
