

Docket, Claims & Disposition Bankruptcy Monitoring

Never miss new bankruptcy events
or updates to existing cases

Employees are too valuable to manually monitor and identify every bankruptcy event. AACER's monitoring options make it easier to identify critical changes to dockets, claim registers, and disposition statuses. Automating the tracking of key indicators minimizes tedious manual searches and flags important bankruptcy events at scale, saving valuable time and improving outcomes for secured and unsecured portfolios.

Docket Monitoring

Identifies new
filings and changes
within a docket

Claim Register Monitoring

Identifies new and
important associated
claim events

Disposition Monitoring

Identifies and returns
all critical disposition
dates

**Collectively or independently, these monitoring services automate
critical processes within the bankruptcy lifecycle.**

Docket Monitoring

From the opening of a new bankruptcy case through its closure, Docket Monitoring automatically identifies the docket changes enabling fast response for critical events. Manage queues, monitor progress, and reallocate workloads when needed.

AACER Docket Monitoring also seamlessly integrates with Case Search and Document Retrieval to enable fast and efficient transitioning throughout the case.

For secured or unsecured portfolios covering small to large enterprises, Docket Monitoring can be configured for any workflow.

Gain confidence that each docket is fully monitored from beginning to end.

Claim Register Monitoring

Through out the bankruptcy life cycle the Claim Register Monitoring automatically identifies new and important claim events.

Leave the monitoring to AACER for the most current claim information on your bankruptcy case. With AACER's integrated user interface, switching from the docket to the claims register is easy with a simple click.

Increase response time and reduce risk with automated access to critical claim data.

Disposition Monitoring

AACER Disposition Monitoring identifies and reports critical bankruptcy disposition dates for both debtors and joint debtors. These dispositions dates include current and previous:

- Discharges
- Dismissals
- Converted
- Closed
- Re-open
- Split
- Transferred

Never miss a key milestone date again.

AACER Monitoring Services provide the functionality and confidence required for managing critical bankruptcy processes throughout the life cycle.
